Dynamics of Atmospheres and Oceans, 12 (1988) 339–340
Elsevier Science Publishers B.V., Amsterdam – Printed in The Netherlands

CONTENTS

Volume 12, 1988

Research Papers

Stochastic models and spectra of interannual variability of mean annual sea surface temperature in the North Atlantic
V.E. Privalsky (Moscow. U.S.S.R.) 1

Non-modal baroclinic instability
S. Meacham (Cambridge, MA, U.S.A.) 19

On no-slip boundary conditions for the incompressible Navier–Stokes equations
M.G.G. Foreman (Sidney, B.C., Canada) and A.F. Bennett (Corvallis, OR, U.S.A.) . 47

Bounds on the eigenvalues of the planetary-scale baroclinic instability problem
F. Cavallini, F. Crisciani and R. Mosetti (Triesta, Italy) 71

Book Reviews

The Atmosphere and Ocean: A Physical Introduction
by N. Wells—J.C.J. Nihoul 81

Climate and Circulation of the Tropics
by S. Hastenrath—R. Kershaw 81

Wave Dynamics and Radio Probing of the Ocean Surface
by O.M. Phillips and K. Hasselmann (Editors)—K.F. Bowden 82

Guide for Authors 85

Special Issue: Intermediate and small-scale processes and structures in the ocean.
Guest Editor: Y. Nagata

Contents, special issue iii

Preface iv

Research Papers

Signatures of surface wave/internal wave interactions: experiment and theory
J.R. Apel, R.F. Gasparovic, D.R. Thompson and B.L. Gotwols
(Laurel, MD, U.S.A.) 89

The buoyancy flux from internal gravity wave breaking
G. Holloway (Sidney, B.C., Canada) 107

Comparison of modelled and observed dependence of shear on stratification in the upper ocean
J.H. Smart (Laurel, MD, U.S.A.) 127

The turbulent bottom boundary layer and its influence on local dynamics over the continental shelf
R.K. Dewey (Corvallis, OR, U.S.A.), P.H. LeBlond (Vancouver, B.C., Canada) and
W.R. Crawford (Sidney, B.C., Canada) 143

Detailed water mass analysis in the Kuroshio Front with special reference to its double structure
H.-R. Shin, Y. Nagata and J. Yoshida (Tokyo, Japan) 173

A tidal front influenced by river discharge
T. Yanagi and S. Takahashi (Matsuyama, Japan) 191

Research Papers

On the vertical structure description of quasi-geostrophic ocean models
C.F. Rogers (Sunbury on Thames, Gt. Britain) and K.J. Richards (Southampton, Gt. Britain) 207
Experiments on steady buoyancy transfer through turbulent fluid layers separated by density interfaces
H.J.S. Fernando (Tempe, AZ, U.S.A.) and R.R. Long (Baltimore, MD, U.S.A.) ... 233
On the nonlinear Munk model. I. Steady flows
B. Moro (Princeton, NJ, U.S.A.) 259
A study of current structures in a two-layer shelf model
A.W. Woods (Cambridge, Gt. Britain) 289
A truncated oceanic spectral model for equatorial thermodynamic studies
N.R. Smith (Parkville, Vic., Australia) 313
Contents of Volume 12 339
